Professional Summary

Full Stack Developer with **6+ years of experience** in developing scalable microservices, enterprise applications, and CI/CD automation. Skilled in Java, Spring Boot, Microservices, React, AWS, and cloud-native solutions with strong problem solving, effective communication and collaboration skills.

Skills

Languages	Java, Python, JavaScript
Frameworks	Spring Boot, React, Angular
Databases	DB2, Oracle, Postgres, Cassandra, MongoDB, MySQL
Cloud/DevOps	Azure, AWS, PCF, Distributed Linux, Docker, Jenkins, GitHub Actions
Others	REST API, Microservices, JMS, Kafka, ELK Stack, Splunk, AppDynamics

Experience

FedEx Express, Hyderabad

Feb 2024 – Present

FULL STACK DEVELOPER SENIOR I

- Built scalable, event-driven microservices intercepting **~5M daily shipments** for fraud prevention, reschedule and rerouting.
- Migrated **~20M records** and synchronized DB2 and Oracle in near real-time without **CDC** license via high-throughput service.
- Implemented robust **CI/CD pipelines** using Jenkins and GitHub Actions, incorporating automated quality checks and security validations resulting in improved code reliability, and faster release cycle.
- Configured **centralized logging, observability, and monitoring** for microservices by configuring dashboards to track request volumes, validation failures, error rates, and also enabling real-time service health monitoring and alerts through threshold-based metrics.
- Enhanced the **Intercept Portal UI** using Angular, adding robust data validation, error highlighting, pagination, file upload/download, and package tracking, greatly improving **user experience** and **operational efficiency**.
- Took initiative to attend optional cross-timezone meetings with development and product teams, consolidated key information, and **documented technical insights**—enhancing team clarity, minimized project blockers and accelerating delivery.

Infinx Healthcare Pvt Ltd, Bangalore

Dec 2021 – Feb 2024

SENIOR SOFTWARE ENGINEER

- Developed Infinx Automation Solutions saving hundreds of **FTE hours** by automating Web/API based processes.
- Implemented microservices with REST APIs, message brokers, and **webhook** events.
- Provided **on-call support** for production and resolved critical issues.
- Took interviews** and worked as a team player by on-boarding and **mentoring** team members.

Mindtree Ltd, Bangalore

Jul 2019 – Dec 2021

SOFTWARE DEVELOPMENT ENGINEER

- Contributed to airline ordering & delivery application (SODA) through multiple user stories.
- Built and modified REST APIs, automated data jobs with Python/SQL, and coordinated deployments.

Education

Asansol Engineering College, MAKAUT (Formerly WBUT), West Bengal

2015 – 2019

B.TECH IN INFORMATION TECHNOLOGY

CGPA: 7.24/10

Achievements

- Bravo Zulu Award (2024–25)**: Rewarded for outstanding effort in delivering the Intercept application.
- Rising Star Award (2022–23)**: Honored for exceptional technical skills and unwavering commitment.
